

Remote Monitoring and Management

Software for Safeguarding

The next generation cloud-based safeguarding module aids schools in fulfilling their legal duty of care around online safety and safeguarding.

SAFEGUARDING BUNDLE BENEFITS

Our **next generation** cloud-based **safeguarding module** aids schools in fulfilling their legal duty of care around online safety and safeguarding.

- ✔ **Enhancing your safeguarding capabilities.**
Online monitoring that enhances your safeguarding efforts and abilities with comprehensive keyword libraries developed in partnership with expert organisations.
- ✔ **Secure.**
Read-only logs to ensure your data's integrity in the Azure Cloud.
- ✔ **Data, Trend Analysis and Reports.**
Supporting a focused, proactive and relevant Safeguarding strategy.
- ✔ **Designed by Safeguarding Teams.**
An intuitive management dashboard allowing you to prioritise and manage concerns with ease.

Serious About Safeguarding

Designed with the UK Government Prevent duty, UK Safer Internet Centre, the UK Department for Education's Keeping Children Safe in Education (KCSiE) guidance and with keyword and URL lists from the Internet Watch Foundation (IWF), our next generation cloud-based safeguarding module aids schools in fulfilling their legal duty of care around online safety and safeguarding.

Backed by Microsoft's read-access redundant storage service, your safeguarding logs are replicated to ensure maximum durability and high availability across their ultra-secure data-centres.

Safeguarding Dashboard

With a top level overview of all violations across a single or multiple site setup, Senso is able to deliver unparalleled insight into users actions and behaviour.

One click drill down improves speed and effectiveness to get to the core of the problem as quickly as possible.

Violation Logs

Designed to allow the review of violations and keep track of user activity.

Reporting and Alerting

Receive weekly reports to gain a clearer insight into the number of violations made, which days were the most popular and more. Our weekly reports will help you to monitor and protect your devices wherever they are in the world.

AI Driven Visual Threat Detection

The safeguarding landscape has changed, visual threats are everywhere, legacy solutions offered by technology vendors can be outdated and ineffective.

Only Senso offers a visual threat intelligence feature as a standard component in its safeguarding cloud module, providing early stage actionable intelligence to protect students, identify potential victims and prevent harmful content.

Visual content is everywhere - you can view, save and share easier than ever before. Senso provides a unique solution with visual threat technology driven by categories not general image labelling.
